

# Primeo Energie Kosmos

Science and Experience Centre  
for Climate & Energy

# Come and find the energy answers to climate questions.

## Climate and construction

Our open-air exhibition on 23 yellow reused construction panels shows how sustainability can work in construction. We also take a look at problems and how to solve them.

In the new building for our Science Centre, 70% of the components have been reused, recycled or made from renewable raw materials, or are leftover items, class B stock or waste products and, wherever possible, are of regional origin.

More than 90% of the surrounding grounds are made of reused material and have already been awarded the Bronze Hare architecture prize.

# Why do we need an energy revolution for climate protection?

The Primeo Energie Kosmos in Münchenstein near Basel gets to the bottom of this question.

Natural scientific phenomena relating to climate and energy spring to life and become easy to grasp. Surprising moments for young and old are guaranteed.

Our sites in Münchenstein and Olten offer something for anyone who wants to learn more about climate and energy. Our **Science Centre** hosts hands-on stations, guided tours and science shows. The **Experience Centre** takes you on a multimedia energy journey. And you can take part in workshops or celebrate your birthday at the **Energy Learning Centre**. Schools, the general public, companies and partners: everyone is welcome.

Visit by  
appointment

## Science Centre

Seventeen interactive stations will let you experience various phenomena relating to important climate and energy topics. See for yourself how the greenhouse effect works, or spin pedals and feel the electricity flowing through you all of a sudden – completely safe, of course.

*Duration of the discovery tour: 45 minutes*

## Experience Centre

Let's take a very personal energy journey! In lavishly designed rooms, you will learn how we can still reach the goals of the energy revolution together.

*Duration of energy journey: 35 minutes (max. 15 people)*

## Energy Learning Centre

At our sites in Münchenstein and Olten our younger visitors can build solar vehicles, lamps or small robots, and learn interesting facts about energy.

*Duration of workshop: 3 hours (max. 10 to 15 children)*

## **Workshops**

In our two workshop spaces on the second floor of the Science Centre, electricity comes from the ceiling, while knowledge flows straight from hands into minds:

Whether on climate, energy or sustainability, in the workshops we delve deeper into the topics we encountered at the Science and Experience Centre. As an extra-curricular place of learning, we continue with our teachers and students from where traditional lessons end.

*Duration of workshop: 45 minutes (on request)*

## **Science shows**

Enough research: now it's showtime! Experienced experts explain the wonders of science in a vivid and entertaining show, giving you an even better understanding of how the extraordinary everyday climate and energy processes all around us work.

*Duration of the science show: 45 or 90 minutes (on request)*

## **Guided tours**

Our guides will be happy to share their knowledge with you on one of our very own guided tours, be it on exciting climate reconstructions of the past millennia or on the charged history of electricity.

*Duration of tour: 45 minutes (on request)*

## **Event location**

Whether you're organising a company event, a club outing or a child's birthday party, you can choose from a wide array of spaces and accompanying programmes for all kinds of occasions.

*On request*

## Opening hours – by appointment

The Primeo Energie Kosmos is open for your visit every Thursday from 3 to 5 pm and every Saturday and Sunday from 1 to 3 pm. We always recommend booking by phone or email for guaranteed entry to the science and adventure centre. There is a limited number of 30 places per day.

Groups and school classes of 10 or more people can also enter outside the above times for an individually arranged programme. Please contact Primeo Energie Kosmos using the [registration form](#).

The contents of the entire exhibition are available in German, French and English. We look forward to your registration.

## Entrance fees

Children up to the age of 7	for free
Adults aged 18 and over	15 CHF
Reduced (children/young people from 7 to 17, OASI, IV, BLKB customers)	12 CHF
Family (up to 2 adults and up to 5 children)	45 CHF

A detailed price list is available at [primeo-energie-kosmos.ch](https://primeo-energie-kosmos.ch). Entrance is free for schools and Primeo Energie customers.
